

**Department of Radiology
3D Visiting Fellowship
Pre-Arrival Questionnaire**

Name:

Name and Address:

Contact phone number and email

1. What type of CT and MR scanners are you presently using? What type are you considering for purchase?
2. What types of exams are you most interested in focusing your training on during your 3D fellowship?
3. What model server do you use primarily for post-processing your CT/MR scans now? Is this the server that you would like to focus your training on while you are here? If not, please specify which one you would like to use during your training at Stanford.
4. How much experience do you have with 3D post-processing? Have you received any training from software/systems vendors?

5. What visualization techniques are you using (i.e., curves, mip, volume rendering, etc.)?

6. What types and number of exams will require 3D post-processing at your site per month?

7. What types of exams are you interested in focusing your training on while you are here? (i.e., Coronary, Colonography, TAVR)

Feel free to bring a few of your site's CT or MR scans on optical discs or thumb drives for 3D processing during your training.
